

Agenda

Fall 2019 Food Packaging Summit
November 12-14, 2019
Andaz Savannah, Savannah, GA

Tuesday, November 12, 2019

3:00pm – 6:00pm	FDCPMC Executive Board Meeting	Decker Studio
6:00pm – 7:00pm	Welcome Reception for all registrants	Terrace

For details on what Savannah has to offer please contact the Andaz hotel concierge: Tel 912-233-2116 ext. 138 or email: andazsavannahconcierge@gmail.com

Wednesday, November 13, 2019

7:30am – 8:15am	Summit Participant Breakfast	Decker Studio
8:15am - 10:00am	SUMMIT PART 1 – Moderator Rick Siergiej	Grand Studio
8:15 – 8:45	<p>FDA Update on the Food Contact Substance Notification (FCN) Program <i>Elizabeth Petro, Ph.D., FDA</i></p> <p>FDA evaluates market and scientific information to reach accurate safety-based decisions during the review of FCN submissions. This presentation will include a brief overview of the FCN program, updates on the CFSAN Online Submission Module (COSM), and updates on FDA's re-evaluation of packaging factors for determining consumer exposure to food contact substances.</p>	
8:45 – 9:15	<p>Almost Positive: Japan's Emerging Government Positive List for Food Packaging <i>Mark Thompson, Keller & Heckman LLP</i></p> <p>A summary of the recent developments relating to the development of a government Positive List (PL) system for food-contact materials in Japan. The PL System for 'synthetic resins' is now completed with other materials yet to come.</p>	
9:15am – 9:30am	BREAK <i>Sponsored by Royce Global</i>	
9:30am – 10:30am	Moderator Devon Hill	Grand Studio

	<p>The Historical Foundations of the Linear Non-Threshold Dose Response Modal for Caner Risk Assessment <i>Edward Calabrese Ph.D., University of Massachusetts-Amherst</i></p> <p>This presentation summarizes historical revelations which challenge the history of cancer risk assessment, showing scientific errors and incorrect interpretations, mixed with deliberate misrepresentations by leading ideological radiation geneticists. These findings demonstrate that the scientific foundations of LNT were seriously flawed and should not have been adopted for cancer risk assessment.</p>	
10:30 – 10:45	<p>BREAK <i>Sponsored by Royce Global</i></p>	
10:45am – 12:15 pm	SUMMIT Part 2 – Moderator Beth Trenor	Grand Studio
10:45 – 11:15	<p>Recycled Material in Food Packaging <i>Monica Filyaw, PolyQuest, Inc.</i></p> <p>This is an overview of global regulations for using recycled plastics in direct food contact materials. Considerations for seeking approval. Requirements for plastics that have gone through a secondary, physical, recycling process.</p>	
11:15 – 11:45	<p>Monitoring Consumer and Environmental Exposure to Contaminants from Food Packaging and Data Driven Solutions for Sustainability <i>Keith Vorst, Iowa State University</i></p> <p>Increasing regulatory and consumer pressure to monitor and reduce overall contamination such as extractables and heavy metals in the environment has resulted in the ongoing evaluation of maximum allowable threshold levels in food packaging. One of the greatest hurdles to realistic and attainable regulatory oversight is the lack of historical data to make data driven threshold recommendations. The purpose of this presentation is to discuss environmental and human exposure to contaminants such as heavy metals, PFAS, and total extractables in food packaging and potential solutions to increase sustainability efforts.</p>	
11:45 – 12:15	<p>FoodService Packaging Institute Update <i>Brian Sernulka, Foodservice Packaging Institute</i></p> <p>Discussion of policy issues impacting foodservice packaging</p>	
12:15pm – 1:30pm	LUNCH	22 Square Restaurant
1:30pm – 2:45pm	Joint Session with EHS+ - Moderator Monica Filyaw	Grand Studio
1:30 – 2:00	<p>REACH Polymer Exemption in Jeopardy <i>Greg Clark, Keller & Heckman LLP</i></p>	

	Recent events have indicated that the REACH approach on polymers may be changing. The history and future of the REACH approach to polymers will be disc	
2:00 – 2:30	Implications of REACH Data Elsewhere <i>Jeff Morris, EPA</i>	
2:30 – 2:45	Q&A Session	
2:45pm – 3:00pm	BREAK <i>Sponsored by Royce Global</i>	
3:00pm – 5:45pm	Joint Session with EHS+ - Moderator Alisa Boucher	Grand Studio
3:00pm – 3:30 pm	Practical use of recycled plastics in food packaging – Challenges facing producers and converters <i>Mickel Knight, Printpack</i>	
3:30 – 4:00	Enhancing the Properties of Recycled Polypropylene <i>Scott Trenor, Ph.D. Milliken & Chemical</i> By combining science with design and insights, Milliken tackles the issues and concerns of today. Every day, our community of innovators is invigorated by the challenge of finding creative ways to enhance people's lives and make the world around us easier, safer, more sustainable and more beautiful. Since our first published recycling policy in the 1900's, we've been finding innovative and environmentally friendly ways to increase the use of materials and diverting them from landfills. We will discuss the polymer science behind the development of the DeltaMax family of products as well as future directions in recycling and sustainability of plastics.	
4:00 – 4:30	Chemical Legislation in the States <i>Brennan Georgianni, PLASTICS</i> PLASTICS State Staff has been tracking several pieces of legislation and regulation regarding the presence of different chemicals in foodservice packaging. This presentation will provide an update to members on the status of these activities.	
4:30 – 5:00	Emerging Issues in Biopolymer Technology <i>Phil Van Trump, Danimer Scientific</i>	
5:00 – 5:30	Microplastics: Overview and Policy Outlook <i>Emily Scheller, American Chemistry Council</i> Microplastics are increasingly being recognized as contaminants of emerging concern as they have been detected across various environmental media. However, mere detection in the environment does not mean that human or ecosystem risk is present. This session will provide an overview of microplastics, the current research and policy, and trends.	
5:30 – 5:45		

	Q&A Session	
5:45pm	ADJOURNMENT	
6:00pm – 8:00pm	Reception <i>Sponsored by Keller & Heckman LLP</i>	Terrace

Thursday, November 14, 2019

7:30am – 8:30am	FDCPMC Breakfast	Grand Studio
	Open to FDCPMC members ONLY.	
8:30am – 12:00pm	FDCPMC Business Meeting <u>FDCPMC members ONLY.</u> Discuss major regulatory developments, potential implications, and related FDCPMC initiatives with FDCPMC members. Hear in-depth reports from FDCPMC leadership and the Committee's legal counsel and technical advisor from Keller & Heckman LLP.	

PLASTICS INDUSTRY ASSOCIATION (PLASTICS)

ANTITRUST REMINDERS AND MEETING GUIDELINES

Group activities of competitors are inherently suspect under the antitrust laws. Many agreements and activities between and among competitors, however, are both legal and beneficial to society and the industry. It is expected that all member representatives involved in PLASTICS activities, as well as PLASTICS consultants and meeting participants, will be sensitive to the legal issues involving trade associations and take all measures necessary to comply with U.S. antitrust laws and similar foreign competition laws.

Whether seriously or in jest, **do not discuss** or exchange information regarding:

Prices, including:

- Individual company prices, price changes, price differentials, pricing patterns or policies, discounts, allowances, credit terms, warranties, rebates or special financing, indemnification agreements, or other terms and conditions of sale affecting price.
- Industry pricing policies, price levels, price changes, pricing procedures, profit margins or other data that bear on price.
- Individual company data on costs, production, capacity, inventory, sales, profit margins or other data that bear on price.

Production, including:

- Individual company plans concerning the design, production, distribution or marketing of particular products or product features, including possible or proposed customers or territories.
- Agreements with competitors to control or limit production, restrict or allocate exports or imports, control or limit product quality or research or allocate sales according to customers, territories or products.

Marketing procedures, including:

- Matters relating to dealing or not dealing with actual or potential individual suppliers, customers, or competitors that might exclude them from the market;
- Territorial restrictions, allocations of customers, restrictions on types of products or any other kind of market division.

Meeting Guidelines

- Agenda will be prepared and distributed before the start of the meeting.
- Meeting discussions will be limited to agenda items unless the Chair approves additional topics.
- Minutes of a meeting represent the legal record of what transpired. Carefully review draft minutes and call for corrections if the meeting minutes are not accurate.
- Staff (or counsel) will be present at each meeting.
- Object to any discussions or activities that appear to violate PLASTICS' antitrust policy.
- Avoid colloquial language that might be mischaracterized later (e.g., "dominance," "only game in town," "control of market").

This list is not exhaustive and understanding and acting in compliance with U.S. and foreign antitrust and competition laws sometimes can be difficult. If you have a question about the propriety of PLASTICS activities or discussions in an PLASTICS meeting, you are encouraged immediately to contact PLASTICS counsel or your company's legal counsel.

Confidentiality Reminder

It is expected that all members of PLASTICS will act in the best interests of the association. Discussions at meetings and any documents or other materials that are produced or distributed are confidential. Details of the meeting should not be published, disclosed to any third parties, or used except in support of official PLASTICS business. Naturally, member company representatives can share this with appropriate personnel within their own companies; when distributing within your companies, please remind the recipients of the confidential nature of the information.
